

## **European Nuclear Education Network Association Action List (Working Groups and Working Areas) for 2065-2017**

### **From ENEN Statutes**

#### **Article 9 – WORKING GROUPS**

Every year, on proposal of the Board, the General Assembly approves a list of actions to be performed during the coming year, as well as the list of persons in charge. These actions are pre-selected by the Board at the suggestion of the ENEN Members, the Partners of the Memoranda of Understanding and the Secretary General.. Each action pertains to a Working Group. A Working Group dedicated to the action is set up and its Leader is nominated by the same General Assembly.

Each Working Group belongs to one of the five possible Working Areas but others may be constituted:

- Teaching Academic Affairs Area
- Advanced Courses and Research Area
- Training and Industrial Project Area
- Quality Assurance Area
- Knowledge Management Area

Each Working Area consists of all Leaders of the Working Groups belonging to that Area.

For each Working Area a Coordinator is selected by the Leaders of the Working Groups belonging to it. The Coordinator reports to the Board and the General Assembly.

The Board, together with the Secretary General, monitors the activities of the Working Groups.

A new Working Group may be established provisionally, with approval by the Board, till the next General Assembly in case there are strong needs to establish it, It is established formally by the General Assembly.

The Coordinator of Working Areas, the Leaders and the members of the Working Groups are appointed as individuals belonging to the ENEN Members, the Partners of the Memoranda of Understanding and the Secretariat.
